

MUHLENBERG COLLEGE FELLOWSHIP INFORMATION

The information below is a sketch of certain national and international awards for graduate (and in some instances, undergraduate) studies. Please note that all awards require a statement that demonstrates intellectual and personal maturity in clear, thoughtful prose. G.P.A. requirements vary, although a 3.6 or 3.7 is the most common minimum. Students must work through the advisor listed well in advance (sometimes a year or more) of the deadline. In most cases, the College must endorse final applications to these foundations.
