

Against Complicity: Surveillance, Education and Digital Redlining

Lecture by Chris Gilliard

Professor of English
Macomb Community College

7 p.m., Thursday, March 1
Moyer Hall's Miller Forum

Chris Gilliard's presentation will examine the issues of privacy, digital redlining and the re-inventions of discriminatory practices through data mining and algorithmic decision-making, especially as these apply to college students. He is a Professor of English at Macomb Community College.

This talk is co-sponsored by the Muhlenberg Digital Learning Team and the Media & Communication department.
