All students are required to register their wireless devices or computers to access the Muhlenberg Wireless Network. This is the same process that is required for all hard wired or Ethernet cable connected computers and gaming devices.

If the wireless mobile device or computer you are going to register has a hard wired connection to the internet such as the cable between your laptop and the wall jack in your room, please disconnect that hard wired connection before proceeding.

Use the instructions that came with your mobile device or computer and locate the “BergWiFi” access point.

Command the device to connect to the proper access point and when prompted for a password or key type: muhlenberg (all lower case).

Next you must launch your computers or mobile devices internet browser. This should automatically launch the “BSi Campus Manager” web page. Once the “BSi Campus Manager” web page is displayed type the username and password that you use to log on to your Muhlenberg Mail account into the proper fields, select “Laptop” from the drop down for “HW Description” and click on “Apply”.

If for some reason the “BSi Campus Manager” page does not display when the internet browser is launched, you must type: http://192.168.252.54/registration/index.html in the browsers address bar for the “BSi Campus Manager” web page to be displayed. Then complete the registration process as stated above.

You will receive one of two return messages in your browser, “Successfully Registered” or “Registration Failed”. If you receive the “Registration Failed” message check and verify your username and password. Also double check to be sure there is no hard wired connection to the internet from your computer or mobile device.

If you require assistance performing the registration you can contact the student help desk at 484-664-3375 or via e-mail at helpdesk@muhlenberg.edu or just stop by. We are located in the basement level of the Ettinger building room 003 and are available week days from 8:00 AM to 5:00 PM and some weekends depending on student associate schedules.
