Muhlenberg currently utilizes a financial software system from Blackbaud titled Financial Edge. Financial Edge (FE) is utilized by the Treasurer and Controller’s Offices for general ledger functions, financial reporting, journal entry processing, Accounts Payable processing, cash receipts, and budget management. Most Budget Directors and Department Chairs have access to the system for reviewing their departmental budget information and related transactions.

Requests for access to FE should be directed to Jason Feiertag, Assistant Treasurer extension 3142 or Feiertag@muhlenberg.edu
