

TOILET TALK

MUHLENBERG COUNSELING SERVICES IS REMINDING YOU TO PRACTICE SAFE SEX

The Best Sex is Safe Sex

With Valentine's Day approaching, we are reminding you that the best sex is safe sex! It is always smart to openly communicate with your partner regarding sex, and how to avoid unwanted pregnancy and STIs. If prior communication is not possible, be prepared! You can obtain free condoms at the Muhlenberg Health Services, located on the main floor of the Life Sports Center.

Did you know...

- One in five people in the United States has an STI.
- Two-thirds of all STIs occur in people 25 years of age or younger.
- Cervical cancer in women is linked to Human Papillomavirus.
- Hepatitis B is 100 times more infectious than HIV.
- More than 5 million people are infected with HPV each year.
- STIs, other than HIV, cost about \$8 billion each year to diagnose and treat.
- One in five Americans have genital herpes, yet at least 80 percent of those with herpes are unaware they have it.
- Less than half of adults ages 18 to 44 have ever been tested for an STI other than HIV/AIDS.
