Czech Drama: *The Increased Difficulty of Concentration* 
by Vaclav Havel (1936-present)

*The Increased Difficulty of Concentration* by Vaclav Havel

Dr. Huml, a social scientist and writer, has a life that's fragmenting around him. He has troubles with his wife, troubles with his mistress, and troubles with a malfunctioning form of artificial intelligence called Puzak. His life goes round and round, repeating itself until Huml barely knows where he is or who his current lover is, as he struggles inside a metaphysical French farce.
