TURF EXPERIENCE!
The purpose of Turf Experience is to allow field hockey players to take their game to the next level! The program will help players of different abilities to maximize their strengths while gaining more experience in the game field hockey. The Astro Turf provides an excellent learning atmosphere for athletes at all levels. It will challenge the older more experienced player in areas of stick skills, shooting, and control, while allowing the younger novice player to find success with passing, pulls and dribbling.

THE FACILITY
Come play in the Scotty Wood Stadium located at Muhlenberg College in Allentown, PA. The home field for the Mules Field Hockey team is a 3,000 seat stadium. The stadium features a brand new, cutting edge, 3D turf field playing surface and lighting. Grass fields will also be available for playing sessions.

CAMP INSTRUCTION
Collegiate coaches and players will provide individualized instruction to small groups based on their age, experience and ability. Instructional sessions will be well organized and cover many different aspects of the game, including fundamental skills, game strategies, specialties such as corners, and rules. Players will be challenged in a fun and energetic atmosphere.

The daily schedule will consist of fundamental skills to help develop proper technique at all levels, with a focus on small-sided game-like situational play. Competitions, competitive scrimmages, and individualized special help will also be included.

In her twelfth summer as director, Kristen Stuckel will continue to challenge the athletes in a positive atmosphere. “The excitement and energy of seeing players learn a new skill or bringing their game to the next level is extremely rewarding. Turf Experience will help them gain important confidence in preparation for the fall.”
