

DEPARTMENT OF HOMELAND SECURITY SUMMER INTERNSHIP PROGRAM

The DHS HS-STEM Summer Internship Program provides a 10-week summer research experience for undergraduate students majoring in homeland security related science, technology, engineering and mathematics (HS-STEM) disciplines. Students will have the opportunity to conduct research in DHS mission-relevant areas at federal research facilities located across the country. Participants receive a stipend of \$500 each week plus transportation expenses to/from their internship location.

Please visit <http://www.ora.gov/dhseducationprograms/> for the complete program description and application guidelines. The online database for applicants usually opens mid-October with a deadline around mid-December.

**DEUTSCHER AKADEMISCHER AUSTAUSCH DIENST (DAAD)
RESEARCH SUMMER INTERNSHIPS IN SCIENCE AND ENGINEERING (RISE)**

This program is administered by DAAD's headquarters in Bonn, Germany. DAAD, in cooperation with science organizations in North America and Germany, offers summer internships in Germany for undergraduate students in the fields of biology, chemistry, physics, earth science and engineering. RISE fellows work directly with doctoral students in research groups at top German universities and institutions and can expect to gain serious hands-on research experience.

Every RISE intern receives a pro-rated monthly scholarship of approximately €650 for any period of eight weeks to three months between June and August. DAAD also provides health and accident insurance. The working language will be English.

Please visit www.daad.de/rise for the complete program description and application guidelines. The online database for applicants will open on November 1, 2017 and ends on December 15, 2018.

CHARLES B. RANGEL INTERNATIONAL AFFAIRS SUMMER ENRICHMENT PROGRAM

The Charles B. Rangel International Affairs Summer Enrichment Program is a six-week summer program designed to provide undergraduate students with a deeper appreciation of current issues and trends in international affairs, a greater understanding of career opportunities in international affairs, and the enhanced knowledge and skills to pursue such careers. The Program usually selects 15 participants (known as "Rangel Scholars") each year from universities throughout the United States. Students live at Howard University, attend classes, and participate in a variety of programs with foreign affairs professionals at Howard and at diverse locations around Washington, DC.

The Program has two major components. First, in order to enhance participants' academic preparation to work in international affairs, the Program provides two courses and a seminar that focus on enhancing knowledge and skills related to U.S. foreign policy, economics and writing. In addition, in order to provide greater insight into the foreign policy-making process and international affairs careers, the Rangel Program introduces the participants to a wide range of government and non-government professionals who work on global issues and also arranges visits to various institutions involved in international affairs. The Program also helps students explore graduate school, scholarship, fellowship, internship, and professional options in international affairs.

The Program covers the costs for tuition, travel, housing, and two meals per day. It also provides a stipend of \$3,200.

The dates for the 2018 Summer Enrichment Program are June 18 - July 28, 2018.

Applicants must be full-time undergraduate students, with at least sophomore status on the date of the application deadline.

Applicants must have a cumulative grade point average of at least 3.2 on a 4.0 scale at the time of application.

Applicants must be U.S. citizens.

Applicants prepare their Summer Enrichment Program applications on line. The online application **closes on February 1, 2018.**

Full information on the program is available at: <http://www.rangelprogram.org/>
