

# Research Assistant Application - Gotthard Lab

Thank you for your interest in the Gotthard Lab. Research Assistant positions are often full, but when an opening does occur, I use these applications to identify students whose qualifications suggest they would be a good fit for our lab. Openings are most likely to occur at the end of the spring semester, with new researchers beginning in the fall. There are, however, some limited opportunities that may arise during the academic year, depending on current research projects. You will be contacted via email to set up a meeting time, if you appear to be a good fit for a vacancy in the lab.
